

Dear colleagues!

The [list of the accepted presentations](#) is now available on the XXII International symposium “Nanophysics & Nanoelectronics” website.

The list is divided into the following sections:

1. Superconducting nanosystems;
2. Magnetic nanostructures;
3. Semiconductor nanostructures: electronic and optical properties, methods of formation;
4. Probe microscopy: measurements and technology on atomic and nanometer scale;
5. Multilayer and crystal X-ray optics.

Presentation format

Plenary talks will conform to a 45-minute format (including time for discussion). Invited talks are scheduled to 30 minutes in sections 1, 3, 4, 5 and 25 minutes in section 2. Oral talks are limited to 20 minutes in sections 1, 4, 5 and 15 minutes in sections 2 and 3. The acceptable presentation format for the talks is Power Point slides and other graphic and multimedia Windows-compatible files. Posters should not exceed 0,9 m (width) x 1,2 m (height).

Proceedings

The Symposium Proceedings will be published before the Symposium starts. [The guidelines for the authors](#) can be found on the symposium website in [Documents](#) section. The abstracts complying with the formatting requirements should be uploaded on the symposium website via “My office” in *.DOC format. **The submission deadline is January, 23, 2018**

Accommodation

The Symposium will be held in the sanatorium “[Avtomobilist](#)” near Nizhny Novgorod.

Registration fee

The Registration fee is 300 EUR, and covers the accommodation in the sanatorium “Avtomobilist”, meals (including coffee breaks, banquet), transportation costs, publication of Symposium proceedings, cultural program. The payment can be made at the Symposium.

Organizing committee contacts
