# Dear colleagues!

Before starting, one should install Zoom client (version 5.2+). The computer has to be equipped with a microphone. We ask speakers to enter the session in advance (10 – 15 min) to check the presentation. To join the meeting, use "My Office" on the symposium website nanosymp.ru. The Zoom invitation will not be sent via e-mail for safety reasons.

Note that only authorized users of Zoom are allowed to the meeting. Please make sure to be logged in (using your real credentials) before joining. One has to be registered in Zoom to attend the oral sessions.

After joining the session you will be identified by the Organizer as a Speaker. You can "Raise a hand" to facilitate. This can be done either in Reactions or in Participants tab.

The Organizer will ask you to turn on the microphone and share screen when appropriate. To ask a question after one's talk please also use "Raise a hand". Should you encounter any problems use chat to communicate with the Organizer.
